

# Real Time Security Text Alerts

Fidelity has introduced text alerts so you can more easily monitor your account activities. If you entered a mobile number in your customer profile on [Fidelity.com](https://www.fidelity.com), you will automatically be enrolled in the service. A security text alert will be sent to your mobile phone number and will be delivered in real time. You can opt-out of the service by removing your mobile phone number from the mobile phone number field in your profile on [Fidelity.com](https://www.fidelity.com). You can also stop these alerts at any time by replying 'STOP' to any alert, which will stop all security text alerts. The mobile phone number will not be used for marketing purposes. If you would like to start receiving alerts, you can add a mobile phone number by logging in to [Fidelity.com](https://www.fidelity.com) and clicking "edit personal information" on your Profile screen.

Current Alerts available include:

- Mobile Phone Number Added
- Mobile Phone Number Changed
- Mobile Phone Number Deleted
- Bank Wire Instructions Established
- Bank Wire Processed
- Email Address Added
- Email Address Changed
- Email Address Deleted

Over time, other security alerts may be added. If you have any questions, please don't hesitate to give us a call.
